## TIPS TO MAINTAIN QUALITY BEDDING

- **DO NOT** remove the law tag at the end of your mattress as this has the identification needed to establish your warranty rights.
- **DO NOT** bend or jump on your mattress under any circumstances. Such treatment may damage the innerspring unit.
- **DO** rotate and/or flip your mattress on a regular basis.
- **DO** let your new sleep set "air" upon removal from its plastic packaging and dispose of all plastic packaging as soon as possible.
- **DO** keep your bedding clean and use a mattress pad. Stains of any kind will void the warranty and make your bedding ineligible for repair or replacement.
- **DO** replace the foundation when purchasing a new mattress to provide the proper support for your new mattress.
- **DO** carry your mattress upright on its side. It is easier to handle and less likely to damage the mattress. If you need to store your mattress for an extended period, please store it flat.
- **DO** discard the plastic wrapping on your mattress. A child or pet can become entangled and suffocate.
- **DO** promptly dispose of old mattresses to avoid a fire hazard.
- **DO** use an appropriate frame and center support (pictured below) on queen and king size sets to ensure validation of your warranty.

## IMPORTANT

### BODY IMPRESSIONS VS. SAGGING THERE IS A BIG DIFFERENCE

Many of today's top-quality mattresses use extra-plush foams and fibers to create comfort layers designed to cradle your body and relieve pressure. In the first few weeks you sleep on a new mattress with extra comfort support layers, you will likely notice some body impressions on the surface. These impressions are normal. They indicate that the comfort layers are conforming to your body, as they are supposed to do, and should **NOT** be considered a sign that something is wrong with your mattress.

**SETTLING ON EITHER SIDE OF A KING-SIZE MATTRESS IS NORMAL.** King box springs and foundations are 2-piece units with supportive rods under the mattress center. It is normal for all king mattresses to experience some settling on either side of these rods - **this is not a manufacturing defect.**

## SLEEPWORTHY LIMITED WARRANTY

Congratulations on the purchase of your new Sleepworthy sleep set! You have joined over 75 years of satisfied customers that have enjoyed the long lasting comfort and support that you would expect from a quality sleep system. Welcome to the family.

Because we strongly believe in the quality design and craftsmanship of our bedding, Sleepworthy products are warranted against manufacturing defects in workmanship and material.

**To activate this warranty, you are required to return the attached warranty registration card within 30 days of purchase. If you observe a possible defect, please contact Sleepworthy Customer Support at 800-849-5330. Also, you must be the original purchasing consumer, provide proof of purchase (including date of purchase), and the original law labels must be attached to the bedding.**

Your Sleepworthy mattress and/or foundation will be repaired or replaced (at our option) with charges, as shown on the Sleepworthy Warranty Schedule and exclusive of transportation and inspection costs. All other claims including incidental or consequential damages are precluded. If identical materials are not available at the time of repair or replacement, the manufacturer reserves the right to substitute materials of equal quality. Sleepworthy reserves the right to refuse service and invalidate the warranty when, upon inspection, the sleep set is found to be in an unsanitary condition (due to stains, soiling or other abuse) or when the product failure is caused by factors other than defective workmanship or materials.

Any product returned in unsanitary condition will be refused warranty service regardless of original problem. Sleepworthy shall not be liable for incidental or consequential damages which result through the use of this product. No warranty claim is made as to medical benefits of this sleep set. No warranties, expressed or implied, are extended to persons who purchase the product from anyone other than Sleepworthy or its authorized dealers, and all warranties to such persons, including the implied warranties of merchantability and fitness are hereby excluded.

Any and all implied warranties on this product shall not exceed in duration the term of this limited warranty. This warranty begins on the day you purchase your sleep set. If your sleep set is repaired or replaced, this limited warranty will not be renewed or extended. The warranty code for your product is printed on the law label. Please refer to the Sleepworthy Warranty Schedule on this card to determine the length of your warranty.

Your Sleepworthy mattress meets or exceeds State and Federal Fire Retardency Standards when used either by itself or with a specified foundation.

This warranty gives you specific legal rights. You may also have other rights, which vary from state to state.

The Sleepworthy Warranty does **NOT** cover items such as, but not limited to:

- Normal body impressions of 2" or less. Body impressions are normal due to the settling of plush cushioning materials used in modern mattresses. This is not a structural defect.
- Firmness or comfort preference of the product.
- Bed height.
- Bent perimeter border rods due to moving or bending the sleep set.
- Corner guards.
- Fabric (cover) or handles.
- Increase in softening of materials or upholstery compaction.
- Normal change in softness and recovery time of Latex or Memory foam mattresses. This does not affect the pressure relieving qualities of the mattress.
- Bedding sold "as is", floor samples, or bedding purchased from second hand parties, non-retail establishments or received as a promotional item.
- Product shipped outside of the 50 United States.
- Transportation, inspection, and/or removal costs.
- Mattress or box spring subjected to obvious abuse or improper care/maintenance such as but not limited to: stains or soils, burns, cuts or tears, inadequate support from weak box spring or improper frame (queen and king size must have sufficient center support), upholstery compaction, or bent border wires.
